

# INTERIOR PARTITIONS

## WE ARE INNOVATIVE LEADERS

LIKO-S is one of Europe's largest manufacturers of glass partitions, mobile walls and acoustic solutions. We have been awarded a number of design patents thanks to our own research and development and innovative products – one of them is the interactive SMART-i-WALL® partition.

Because we not only develop and produce our products, we also install them and guarantee the highest quality.

Thanks to our foreign branches and export partners, we follow trends around the world.

And we bring them to you...

**04** MICRA I  
Frameless single-glazed partitions

**12** MICRA II  
Frameless double-glazed partitions

**18** OMEGA  
Modular adjustable partitions

RAVA®  
Adjustable partition  
with a negative gap

**22**

LIK0-Glass®  
Design and functional glass

**30**

# MICRA I

Minimalist all-glass **frameless partitions** that combine transparency and flexibility.

# MICRA I

1 SINGLE  
GLAZED

31-39 dB

## MICRA I | Frameless partition

Maximum transparency and minimalist design with the highest demands placed on functionality and every detail. The aesthetics of your space will remain undisturbed, just like the meetings being held inside. You can have one of the narrowest profiles on the market in a design that fits your interior and look.

- ▲ GlassDesignDoor defines new perspectives
- ▼ Rounded corners and sliding doors

- ▲ Solid doors and technical panels for required wiring or controls
- ▲ Nearly invisible in combination with frameless doors

### MICRA Industry

Modern offices today reflect the peak times of industrial buildings with their industrial style. That's why we've added profiles to our MICRA I partitions to quickly and easily recreate this style.

You can choose the glued version or H profile and divide the partition into smaller glass framed areas.

## MICRA II

Double-glazed frameless partitions meeting the highest acoustic and aesthetic demands.

# MICRA II

2 DOUBLE GLAZED  39-45 dB

## MICRA II | Frameless double-glazed partitions

Your privacy is the most important thing. The MICRA II double-glazed system meets the highest acoustic demands, while maintaining a visually airy and open interior.

The advantage of the Micra II adjustable partition system is its compatibility with other systems and partitions with a width of 100 mm. A wide selection of doors and aluminium profiles is available in many different colours.

- Inner blinds and GlassDesignDoor 100
- Fullheight door
- Technical panel for control devices or light switch

- Fullheight frameless doors and black painted accessories
- White profiles combined with doors in RAL colors

# OMEGA

Modular adjustable system  
combining glass and solid parts.

OMEGA

MODULÁRNÍ  
SYSTÉM

44-50 dB

#### OMEGA | Modular adjustable partitions

Glass or solid, horizontal or vertical. You can combine the modules at your discretion and easily replace them afterwards. Simple and quick change of layout without disturbing the ceiling, thanks to its own supporting structure meeting the highest technical standards. The acoustic properties of the Omega system guarantee absolute uninterrupted operation of... anything.

- ▲ Fullheight veneer door
- ▼ Wooden solid door with overpanel

- ▲ Combination of solid and glazed panels
- ◀ Solid panels in door height
- ▶ Aluminum door with blinds

**RAVA®**

Patented system of concealed load-bearing structure with a negative gap.

RAVA®

46 dB

#### RAVA® | Patented anchoring system

RAVA® partition is a unique product we've developed, whose properties ensure unlimited possibilities for interior design.

The load-bearing structure is concealed and allows any partition lining to stand out. Solid panels are fastened with patented hidden anchors for quick installation. In the case of glass panels, the frame itself covers the glass surface.

Recessed doors are part of the system, which effectively compliment its elegant design. Wood, laminate, cement boards, textile or metal, offer freedom and unlimited possibilities to choose your design, including the thickness of your choice.

- ▶ Horizontally divided panels with high gloss
- ▶ Reverse doorframe literally changes the view of a door
- ▶ Negative gap with concealed structure
- ▶ Glazed system modules

# LIK0-Glass®

Graphics, organic elements, structured materials  
and hi-end digital blinds.

### LIKO-Glass® | Design and functional glass

The laminated glass technology used allows architects and designers to shine. Almost anything can be inserted between fine glass panes – graphic motifs, organic materials, colour-tinted layers, high-tech films with digital blinds or any reference to your business or hobby. As a result, LIKO-Glass® offers virtually endless possibilities for original and attractive interior design. All this with a simple, fast and clean installation.

LIKO-Glass technology can be used in any of our glass systems.

◆ Digital blinds turned on and off with a touch

- ◆ Dried flowers or anything thinner than 2 mm
- ◆ Geometric shapes and unlimited color options

## WE'RE A FAMILY BUSINESS

Every company is mainly about the people and products they create. LIKO-S combines the energy of people to help them perform at their best. Our employees want to think about what they can do differently and better, and develop themselves. Our Development Centre is our foundation, but every small production process also needs to be fine tuned to the maximum.

Thanks to you, our customers, we move further ahead and incorporate improvements based on your feedback with every project. You will learn about our strong corporate culture and attention to detail during the first business meeting and final fine tuning of your new partitions by our trained fitters.

We do things differently – we set trends.

We are LIKO-S.

## LIKO-S: INOVATIVE LEADERS

The innovative spirit drives us forward. We constantly **develop and innovate** – we belong to the Europe's leading manufacturers of interior partitions – glazed, mobile and interactive. The partition design meets the most demanding requirements on **aesthetics, practicality** and **acoustics**.

### MOBILE WALLS

**Change the layout** in a few minutes to the way you currently need it.

### SMART-I-WALL®

High resolution, unique sound and touch screen **directly in the wall**.

### LIKO-GLASS

Between two layers of glass we are able to insert graphics, fabric, metal... **Anything thinner than 2 mm**.

### ACOUSTIC SOLUTIONS

SilentPET® or acoustic booths immerse you in silence and fine-tune the acoustics of space.
